

ODYSSEY® BATTERY

ODYSSEY® Performance Series™ 4D-1300 and 8D-1500 Batteries – meeting the increased power demands of today’s vehicles

Whether it’s a heavy duty commercial truck, an earth mover, a bus or a marine application, you depend on the vehicle’s electronics to provide valuable data, direction and even safety features. Therefore, you need a battery that can power those features without worry of failure.

ODYSSEY® Performance Series™ 4D-1300 and 8D-1500 batteries now are available to meet the ever-increasing power demands of today’s heavy vehicle applications.

The 4D-1300 and 8D-1500 feature:

- Thin Plate Pure Lead (TPPL) technology, contributing to twice the overall power and 30% more life over conventional batteries
- A sealed design, resulting in a virtually maintenance-free battery
- The ability to resist extreme vibration, protecting against high impact shock vibrations that often lead to premature failure

Bottom line? ODYSSEY Performance Series 4D-1300 and 8D-1500 batteries can provide more power for longer, with far less maintenance and a lower Total Cost of Ownership (TCO).

Model	Voltage	PHCA** (5 sec)	CCA*	Nominal Capacity		Reserve Capacity Minutes	Nominal Dimensions				Terminal	Torque Specs in-lbs (Nm max)
				(20 Hr Rate-Ah)	(10 Hr Rate-Ah)		Length in (mm)	Width in (mm)	Height in (mm)	Weight lbs (kg)		
4D-1300	12	2400	1300	170	153	370	20.39 (518.0)	8.78 (223.0)	8.58 (218.0)	117.3 (53.3)	SAE	60 (6.8)
