READING, Pa., (Dec. 6, 2016) – EnerSys® (NYSE:ENS), the manufacturer of ODYSSEY® batteries, will showcase ODYSSEY® batteries and portable chargers for racing and powersport applications at booth no. 1039 at the 2016 Performance Racing Industry (PRI) Show. The PRI Show will take place Dec. 8-10 at the Indiana Convention Center in Indianapolis, In.

Attendees visiting the booth will have the opportunity to learn more about ODYSSEY® Extreme Series™ batteries, including the ODYSSEY® PC1200LMJT battery, as well as ODYSSEY® battery portable chargers. With superior power and endurance through unique Thin Plate Pure Lead (TPPL) technology, ODYSSEY® Extreme Series™ batteries can provide engine cranking pulses up to 2,250 amps as well as extended battery life due to their ability to withstand extreme shock and vibration. ODYSSEY® Extreme Series™ batteries can be used in a number of powersport and racing-related applications, including Utility Terrain Vehicles (UTVs), All-Terrain Vehicles (ATVs), high performance vehicles and modified vehicles.

2

Part of the ODYSSEY® Extreme Series battery product range, the ODYSSEY® PC1200LMJT battery is a recommended upgrade for the Polaris® RZR1000. The ODYSSEY® PC1200LMJT battery provides engine-cranking pulses up to 1,200 amps and 540 Cold Cranking Amps (CCA) and can also handle 400 charge-discharge cycles to 80 percent depth of discharge. Additionally, dry cell Absorbed Glass Mat (AGM) separators hold acid in place to prevent spills, even when the battery is installed on its side.

The booth also will showcase ODYSSEY® battery portable chargers. With automatic six-stage charging and a wide range of built-in safety features, ODYSSEY® battery portable chargers facilitate full and proper charging, which may help to enhance the performance and extend the life of ODYSSEY® batteries and other quality brands of 12-volt flooded and AGM lead acid batteries. ODYSSEY® battery portable chargers are available in 6-amp, 12-amp and 20-amp models. They are backed by a limited two-year full replacement warranty.

“ODYSSEY® Extreme Series™ batteries are designed to withstand high impact shock and vibration so that riders can take on any adventure,” said Alan Kohler, ODYSSEY® battery marketing manager at EnerSys. “ODYSSEY® Extreme Series™ batteries provide riders with the power and reliability to meet the demands of various powersport and racing vehicles.”
